

FOCUS™

Portable Oxygen Concentrator

Our smallest and lightest

Less than 2 pounds (0.9 kg) and small enough to fit in the palm of your hand, the Focus™ is easily worn with a shoulder strap or belt clip. It is also FAA-approved for commercial air travel.

STAY ACTIVE

Enjoy your freedom and stay active thanks to this lightweight device equipped with 3 hours of standard battery life. The batteries store conveniently in the pouches located on either side of the carrying bag.

PEACE OF MIND

Enjoy convenient, portable oxygen with sensitive breath detection — UltraSense™ Technology — which ensures the quick delivery of pulse oxygen in the early stages of your breath and reduces the risk of skipped breaths.

LIGHTWEIGHT AND DISCREET IN SIZE

Equipped with pulse setting 2, the Focus™ is designed to meet the needs of oxygen users without adding the extra weight of higher flow units. Discreet in size, it is perfect for helping you maintain your active lifestyle whether it is playing a round of golf or going out for a night of dinner and dancing.
