

OXYSURE™

With 24×7 Live
Oxygen Purity Display

Home 5 LPM
Oxygen Concentrator

Weight **13.5 kg**

Gold Standard Floating Ball Flowmeter

Provides precise oxygen flow adjustment in **0.1 LPM increments**, a trusted choice among healthcare professionals worldwide.

Suitable for Home & Clinical Use

Reliable Oxygen upto 5 Litres per minute

Delivers reliable **continuous oxygen flow from 0.5 to 5 LPM**, providing consistent therapy support across a wide range of prescribed requirements.

Built-in Nebulizer

Supports oxygen therapy and nebulization in one device, eliminating the need for a separate nebulizer.

One-Touch Therapy Start

Simply turn on the power switch and oxygen therapy begins instantly at your preset flow rate — no additional buttons required.

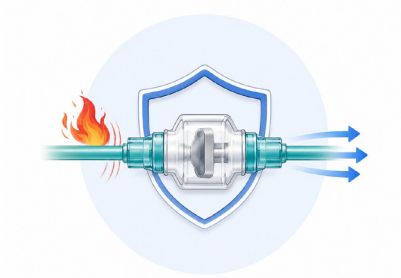

With Flow Memory During Power Cuts

Automatically restores the previously selected flow rate after power is restored, ensuring uninterrupted convenience.

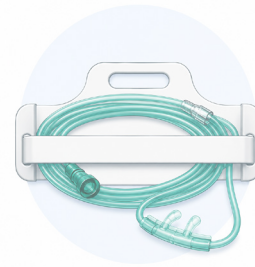

Built for Continuous Operation

Designed for dependable, **long-duration oxygen therapy** to support everyday use whenever you need it.

Fire Resisting Damper

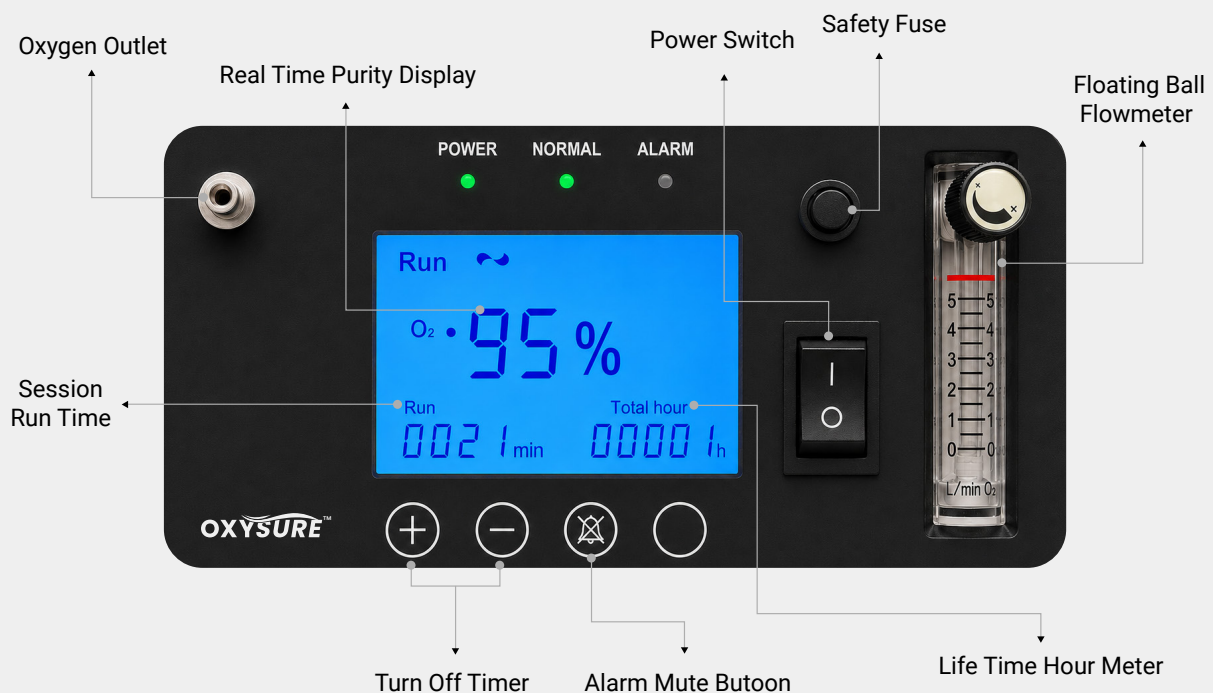

Helps prevent the **spread of fire** through the oxygen delivery system, providing an additional layer of safety during oxygen therapy.

Cannula Holder Strap

Keeps the **nasal cannula** neatly secured when not in use, reducing tangles and improving organization.

Intuitive Control Panel

Oxysure™ Home 5L

Reliable 5 LPM Oxygen, Wherever It's Needed.

Oxysure™ Home 5L is designed to deliver dependable continuous-flow oxygen for home care and clinical settings, with live oxygen purity monitoring and essential safety alarms.
