DreamStation Go

Travel CPAP

Anywhere you go

DreamStation Go

Convenience without compromise

DreamStation Go

Whether you're traveling for business or venturing out on the vacation of a lifetime, DreamStation Go provides an easy, reliable and portable CPAP experience.

- Our smallest and lightest tubing¹
- Our smallest CPAP machine
- Our lightest CPAP at less than two pounds
- Complies with FAA requirements²

Packs performance **anywhere you go**

Wherever your travels take you, sleep apnea follows. That's why DreamStation Go is an indispensable travel partner, packs the same performance as our home CPAP machines into a light, streamlined package. It even has a convenient USB port to charge your mobile device.

¹When compared to Philips 22 mm performance tubing

²RTCA/DO-160G section 21, category M.

Choose **the mask you want**

Mask compatibility

DreamStation Go gives you the freedom to choose the mask you want! There's no need for you to switch from the mask you are currently wearing at home when using a travel CPAP.

Send dryness **packing**

Heated humidification

Heated humidifiers are designed to add moisture to delivered air with the goal of improving comfort during therapy. DreamStation Go's optional heated humidifier uses tap, bottled or distilled water² so travelers don't have the inconvenience of packing or purchasing distilled water when you arrive at your destination.

CPAP therapy **even 'off the grid'**

Overnight battery

DreamStation Go's optional overnight battery can help you stay committed to your therapy when you are off the power grid. DreamStation Go, set at 10 cm of pressure, displayed an average run time of 13 hours when running with the DreamStation Go overnight battery.

¹In very hard water areas, it is recommended that you use distilled or bottled water.

²Masks with standard 22 mm outer diameter connection

Innovation for **people on the go**

DreamStation Go provides the portability and packability travelers want and the effective therapy they need.

Humidifier

Optional heated humidifier uses tap, bottled or distilled water.¹

Power

Built-in power supply reduces the number of parts for you to manage for added convenience.

Charge

Only travel CPAP with integrated USB port² allows for easy charging of mobile devices.

Connected

Bluetooth is standard with every device to easily share data.

Control

No app or mobile device needed to adjust your therapy settings.

Air travel

Complies with FAA requirements for in-flight use.³

Performance

Device is compatible with our DreamMapper monitoring self-management tool so you can continue to track your progress.

¹In very hard water areas, it is recommended that you use distilled or bottled water.

²When compared against HDM ZI, Somnedics Transcend and ResMed's AirMini devices, 2017.
